In Into the Blue, Blair loses his brother's GoPro while snorkelling at the Omeo shipwreck.

On this map, we've drawn a bird's-eye view of the Omeo wreck on Coogee Beach, where it has been since crashing in 1905. You can also see four artificial reefs. But, there's no missing camera.

What else might you find on or near the wreck as you search for the camera?

Draw and label any plants or animals, lost objects, trash and treasure you might see on an old wreck.
