by JAMES FOLEY

## ABOUT THE BOOK

Return to James Foley's hilarious series about Sally Tinker, the world's foremost inventor under the age of twelve – now in colour! Sally Tinker is facing an extraordinary new adventure. The brain-enhancing nanobots she is testing have been accidentally swallowed by her baby brother, Joe.

The only way to stop Joe from turning into a superbaby and wreaking super havoc is to shrink herself and travel inside Joe's body on a mission to tackle the problem head-on. What could possibly go wrong? As it turns out, this is only the beginning ...

## ABOUT THE AUTHOR

James Foley is an award-winning Australian author-illustrator. His graphic novels feature Sally Tinker, the world's foremost inventor under the age of twelve, and his picture book *Stellarphant* has been warmly received globally.

## MEDIA NOTES

- Written with humour, these graphic novels offer some simple life wisdom alongside a healthy dose of entertainment.
- This book will be appeal to young readers, with themes of annoying siblings, gross bodily functions and a twelve-year-old ready to save the day.
- The series is the perfect way to encourage kids to get into art, science and invention.
- Teaching notes and activity sheets will be available to support classroom learning via the Fremantle Press website.

## PRAISE FOR THE BOOK

'This graphic novel is hilariously funny. Short in length, it will be devoured by newly independent and emerging readers ... Perfect for school and public libraries.' *Maggies*

'James Foley's unique characters, crazy situations and unusual adventures engage the young reader. His cartoons capture the grossness of the girl's journey and of course their special re-entry into the real world.' *ReadPlus*

'Primary-aged readers will love this instalment in Foley's hilarious S. Tinker Inc. series of graphic novels ... Adventure, young scientists, endless fart jokes, tiny attack bots and a comic book
